ABOUT ME

I graduated from the University of Bristol with a Master's degree in Computer Science. I am currently working as a developer at eflow Global. I am passionate about learning new programming languages and technologies, my expertise includes Java, C, JavaScript, SQL, user research and interactive design.

EDUCATION

- 2021-2022 University of Bristol, Bristol, UK**
Master of Science, Computer Science, Merit
- Relevant modules included Programming in C, Object-oriented Programming in Java, Overview of Software Tools, Computer Architecture.
 - Gained programming skills in C, Java, JavaScript, SQL, version control (Git), and agile development methodology during several software projects.
 - Experience with front-end development, including React, CSS, HTML, and JavaScript.
- 2017-2021 Shanghai Jiao Tong University, Shanghai, China**
Bachelor of Engineering, Industrial Design
- Modules included Human-computer interaction, Interactive Design, Computer Aided Design, Physics, and Mathematics.
 - During third year project I gained skills designing app interfaces and web pages.
 - In the first year group project, I developed a parkour game using Unity, including game design and artwork.

AWARDS

- 2021 & 2019 Shanghai Jiao Tong University Scholarship for students from Hong Kong, Macao and Taiwan**
- Awarded for excellent course results during undergraduate degree.
- 2020 Bronze Award, The 8th Chinese Elderly Welfare Product Creative Innovation and Entrepreneurship Competition**
- Participated in the competition as a four-person team to design an innovative and intelligent product with an app. Designed and produced a prototype for a "smart flower pot" using Arduino and an Android app.
 - Developed academic skills as well as team cooperation, presentation, communication skills.
- 2019 & 2018 Shanghai Jiao Tong University C-class Scholarship**
- Awarded for excellent course results during undergraduate degree.

EXPERIENCE

- June 2023 -present** **eflow Global, Bristol, UK**
Junior Software Developer
- Contributed to SQL within the internal "PATH" development and version control toolkit.
 - C# ASP.NET development on the frontend web application.
 - Experience with Postgres database.
- 2020** **Round 2 Design Company, Taipei, Taiwan**
Product Design Intern
- Designed a prototype used in teaching sessions.
 - Produced promotional materials for the website.
- 2019** **Nikon Imaging (China) Sales Co., Ltd., Photo & Imaging Shanghai 2019 (exhibition), Shanghai, China**
Exhibition Assistant - Part time
- 2018-2020** **International Affairs Division, Shanghai Jiao Tong University, Shanghai, China**
Administrative Assistant - Part time
- Designed promotional materials and managed the official social media accounts.
 - Dealt with administrative documents regarding international students.
